## EDUCATION

**2015-2018 FACULTY OF ELECTIRCAL ENGINEERING AND COMPUTER SCIENCE** - University of Maribor, Slovenia

**2011-2015 HIGH SCHOOL OF ELECTRICAL ENGINEERING AND COMPUTING SCIENCE** - Ptuj, Slovenia

## WORK EXPERIENCE

**2018 SPORT COMMENTARY**

Motion Graphics Designer

Designed high quality 3D logo animation with fire effects from brand logo, which was used for the intro in product presentation. With my knowledge I combined Maxon Cinema 4D with Adobe After Effects.

**2018 PREMIUM MARKETING**

Motion Graphics Designer

I was in charge of video production, which was implemented in marketing strategies. Created and designed professional web pages with modern interactive video content and high quality company motion graphics presentations. The clients were amazed by the innovative approach and creativity. I designed and edited Facebook and YouTube motion graphic ads which were a great success. Modern and stylish web design used for landing pages and e-commerce made a huge impact on sales and lead to satisfied clients.

**2017-2018 FORUM MEDIA GROUP**

Graphic Designer and Video Editor

I was a part of the marketing department. Responsible for design and production of digital creative design used in promotion content in Adobe Illustrator, Indesign and Photoshop. I was the initiator of the video production campaign. Designed a budget proposal for professional video equipment, which was granted. After I was in charge of video production, which was used for the Lead Generation project. I created content in Adobe After Effects and Premiere. Attended company events and educations which I filmed and edited. I was in charge of the complete film setup - from lighting, camera to sound recording. They were used as a bonus material for product promotion. I redesigned and refreshed the email and promotion design.

**2013-2018 REALITY PRODUCTION**

Digital Video Editor and Motion Graphics Designer

Reality Production is a video production company that films and edits videos with VFX effects. I was working on various video and film projects that included producing music videos, filming nature landscapes and designing commercials. Redesigned logotype and visual image of the company. I also created 3D animations in Cinema 4D, which were included as special effects in post-production video. I contributed to the company with my creativity, innovation and hard work.
